GBU Gesellschaft für Betriebsorganisation und Unternehmensplanung mbH

What's new
in Process Simulator 10.5.0.4231

We are excited to announce the release of our first update to Process Simulator this year:

Process Simulator 10.5.0.4231. This version of Process Simulator supports both 32- and 64bit editions of Microsoft Visio 2016 and 2019.

Features

System Functions

- **ScenarioName()**
  Returns current scenario name when the function is invoked in logic; providing ability for more custom reporting.
- **SysClock()**
  Returns the System Date and Time when the function is invoked in logic.

Enhancements and Improvements

- Regular maintenance and improvements
